

Netherton Park Nursery School

Acorn and Saplings Learning Aspirations

'A place where children are at the heart of learning'

Our 'Learning Aspirations' are milestones that we wish each child to achieve by the time they leave Acorn or Saplings and move into Oak.

1. *To seek out others
and begin to develop positive relationships.*

2. *To communicate their wants,
needs and interests.*

3. *To explore their learning environment with
growing curiosity.*

4. *To develop a love for early reading,
handling and sharing books.*

5. To investigate early mathematical concepts through play and exploration.

6. To be active and stay healthy.

Communication and Language is at the heart of everything we do at Netherton Park Nursery School. Intensive Interactions with children to nurture and scaffold their learning is fundamental to them reaching their individual potential. Strong communication and language skills are thread throughout all of our Learning Aspirations.

At Netherton Park Nursery School we truly believe all children are unique and individual. All children develop at their own pace and we fully embrace this, celebrating each small step.
