

Netherton Park Nursery School

Oak Learning Aspirations

'A place where children are at the heart of learning'

Our 'Learning Aspirations' are milestones that we wish each child to achieve by the time they leave Oak and move onto Reception.

1. To develop mutually respectful relationships, to be kind, caring and resilient individuals.

2. To communicate their wants, needs and interests and begin to understand the needs of others.

3. To be competent learners who are curious, creative and embrace their own learning.

4. To develop an understanding of how to care for our world and the environment.

5. To develop a love for early reading, handling and sharing books, and be able to talk about the characters and storyline.

6. To solve everyday mathematical problems through investigation and play.

7. To be active and stay healthy, developing gross and fine motor skills which aid early writing.

8. To be confident and have a growing sense of self to approach new challenges and enjoy their next stage of education.

Communication and Language is at the heart of everything we do at Netherton Park Nursery School. Intensive Interactions with children to nurture and scaffold their learning is fundamental to them reaching their individual potential. Strong communication and language skills are thread throughout all of our Learning Aspirations.

At Netherton Park Nursery School we truly believe all children are unique and individual. All children develop at their own pace and we fully embrace this, celebrating each small step.
