Netherton Park Nursery School

SEND Report

2025-2026 (Summer Term)

'A place where children are at the heart of learning'

SENDCo: Verony Elmer**Governor with responsibility for SEND:** Charlotte Hamilton**SEND Assistants:** Aimie Pearson, Kerry Chesworth and Katie Russell**SEND Policy last updated:** September 2024

Netherton Park Nursery School is committed to ensuring that all pupils, including those with special educational needs and disabilities (SEND) receive their right to a relevant, inspirational and well balanced curriculum. Ensuring that all statutory obligations are made by the school is imperative. All children work and play in a fully inclusive environment with experienced staff. Ensuring that needs are met appropriately, reasonable adjustments made and parents and outside agencies worked closely with. Children have been added to the SEND register as the academic year progresses due to needs being identified early due to the age of the children.

SEND profile: July 2026 - SEND pupils make up 25% of the whole Nursery School cohort.

****** As a school we have continued to host two children who should have moved to Pens Meadow Special School in September due to delays in the school new build we agreed to continue to educate the children here. One child is due to start Reception and the other nursery. Both children have continued to stay in Acorn room to reduce transitions and also to ensure their needs are met appropriately. They start Pens Meadow January 2026.

Some EHCP applications had been submitted before the child started NPNS however have been included in numbers as the process is taking place here.

These figures (pages 1-4) are based on placements where children are specifically being funded however due to the nature of some of the children's additional needs they are being educated elsewhere in the school. For example a Sycamore pupil is educated in Acorn due to physical needs as this is the best fit and most suitable environment. Attendance Data has been compiled from the room in which the child is based.
